

Alternative Assessments for Middle Level Science

Presented by: James Lupini, Staff Development Specialist

Designed for middle level science teachers to incorporate portfolio projects as an assessment tool to meet the needs of all science students.

Participants will:

- Develop a variety of different science projects that can meet the standards and be utilized as part of a student portfolio.
- Create a policy that will allow the students to have portfolio projects count for a major percentage of their grade.
- Learn differentiated instructional strategies to better serve their student population.
